5. SELECTION PROCESS AND FAI REGULATIONS

5.1 Selection process of competitors

The selection of participating teams and competitors is under the responsibility of each FAI Air Sport Commission (ASC). Each ASC has communicated the list of selected competitors to the FAI. The FAI is now informing all National Air Sport Controls (NACs) and gathering all competitors' attendance confirmation through the FAI registration portal.

If a NAC or a competitor has any issue in regard to the selection process we kindly ask you to speak directly to ASC' representatives via www.fai.org.

The World Air Games selection process is based on world ranking lists. When a competitor cannot attend, his NAC cannot choose to replace him/her. The place will be fulfilled by the next best competitor from the reserve list provided by each ASC.

5.2 FAI Sporting License

It is MANDATORY for all competitors to hold a VALID FAI Sporting License issued by the national sporting organization for the discipline that she/he is entering in the WAG.

5.3 Registration to the World Air Games

5.3.1 Registration portal

The registration through the FAI registration portal is the UNIQUE way to confirm the participation of a competitor in the FAI World Air Games Dubai 2015.

At first connection go to <https://wag2015.fai.org/pilot-self-search>. Login is your email address. Then please follow the instruction to create your password. The system will send you an email, please always check your spam folders if you don't receive it.

Once you have your login and password go to <http://wag2015.fai.org/login>. You can access the registration portal at any time and see your Personal Profile and your competitions.

In order to secure the validity of competitors' FAI Sporting Licenses and to speed up their check-in once on-site and for organizational purpose, the registration in the FAI World Air Games Dubai 2015 is an individual process. For this reason, only one unique email address can be used for one unique competitor. It is not possible to use the same email address for multiple competitors.

The registration can be managed either by NAC on behalf of the competitors or by the competitors themselves. That said, all competitors remain under the umbrella of their NAC to gather the delegation under the same flag as per the aim of the Games.

IMPORTANT: all data collected in the registration portal will be used on an organizational purpose only (sporting license, accommodation, transport...etc.). The Organizing Committee commits not to make any commercial use of these data.

Every participant must fill in the correct information on both his personal profile and competition information in order to be well informed and reachable as well.

5.3.2 Registration timeline

All selected competitors must confirm their participation and register until August 15, 2015.

When selected competitors cannot participate, last call based on reserve list provided by ASCs will happen between August 15, 2015 and September 1, 2015.

Specific or additional information can be found in sport-specific bulletins.

5.3.3 Official invitation

An official invitation issued by the Host Organizing Committee will be sent personally to all registered competitors.

The official invitation can be used by the recipient for any purpose she/he is entitled to (sponsorship, holidays or visa requests...etc.).

5.4 Applicable Regulations

The General Rules have been communicated to the selected competitors as annex in their Notification Letter to Compete.

The FAI World Air Games Dubai 2015 will be held in accordance with the relevant provisions in the FAI Statutes and By-Laws, the FAI Sporting Code, these General Rules, the Event Competition Rules and any local regulations applied by FAI.

These General Rules provide the guidelines governing all Air Sport Events included in the Event Programme of the FAI World Air Games. In case of conflict, the General Rules take precedence over all sections of the FAI Sporting Code.

5.5 Official Language

The rules, regulations and information circulated to NACs and competitors or issued during the event shall be in English and, at the discretion of the Organizers, French and/or the language of the host country. In all interpretations the English language version shall prevail. (FAI General Section 3.9.5).

English and Arabic shall be the languages during the official ceremonies.

5.6 FAI Anti-Doping Programme

FAI condemns the use by athletes, in the misguided belief that they improve performance in the air, of substances banned by the World Anti-Doping Agency (WADA). Such substances may degrade pilot performance and compromise flight safety. The activities, defined as "doping", are contrary to the FAI's principles of fair play, and are potentially damaging to athletes' health and safety.

This is why the FAI is conducting an Anti-Doping Programme. In that frame, all athletes should be aware that by participating to the World Air Games, they commit themselves to respect the FAI Anti-Doping Rules and Procedures (available on FAI website) and they agree that they might be subject to anti-doping tests during the competition.

Should any athlete be taking any medication for health reasons, he/she should immediately contact the FAI Anti-Doping Manager to check whether their treatment contain a prohibited substance. In case it does, a Therapeutic Use Exemption can be issued by the FAI and allow the athlete to take part to the competition while being under medical treatment. Any TUE request has to be sent to the FAI Anti-Doping Manager **before November 1st 2015**. After that date, no TUE will be issued for the period of the WAG.

For more information, please visit the FAI website (www.fai.org/cimp-anti-doping-programme) and contact the FAI Anti-Doping Manager, Mrs Ségolène ROUILLON (antidoping@fai.org).

6. RULES AND SPORT-SPECIFIC BULLETINS

The General Rules of the FAI World Air Games Dubai 2015 define the framework.

Each competition format will be described in a sport-specific bulletin.

A sport-specific bulletin will be published in the next days for each air sport discipline and under the responsibility of each disciplines' Event/Meet Directors.

The rule of each competition will be published on-line. Specific communication can be made in due course and/or in the sport-specific bulletins.
