

FAI-Policy **for the Expert Group « FACILITIES »**

1. Policy

- To send a strong message from FAI to the national and international authorities that aviation facilities with potential use for air sports activities should be accessible and without restrictions for such activities
- To support NAC's in establishing/keeping relevant aviation facilities accessible for air sports activities.

2. Goals

The FAI Facilities Expert Group shall:

- To promote FAI as the World Air Sports Federation, representing air sports and recreational flying worldwide
- Keep/improve the accessibility of existing air sports facilities
- Actively promote development of new air sports facilities
- Ensure that replacement sites are offered if closure/restrictions are imposed on present air sports facilities
- Identify guidance material for developing/constructing new air sport facilities

3. Action plan :

2014 :

- establish the Facilities EG (election of Experts and PoC)
- ensure approval of «Policy and Goals» by EB
- issue information letter to Experts (with certificate, P&G, namelist)
- establish priorities and identify three tasks for 2015
