Under the FAI Statutes³, FAI owns and controls all rights relating to FAI International Sporting Events. FAI Members⁴ shall, within their national territories⁵, enforce FAI ownership of FAI International Sporting Events and require them to be registered in the FAI Sporting Calendar⁶.

Each FAI Air Sport Commission⁸ may negotiate agreements, with FAI Members or other entities authorised by the appropriate FAI Member, for the transfer of all or parts of the rights to any FAI International Sporting Event (except World Air Games events⁹) in the discipline¹⁰, for which it is responsible¹¹ or waive the rights. Any such agreement or waiver, after approval by the appropriate Air Sport Commission President, shall be signed by FAI Officers¹².

Any person or legal entity that accepts responsibility for organising an FAI Sporting Event, whether or not by written agreement, in doing so also accepts the proprietary rights of FAI as stated above. Where no transfer of rights has been agreed in writing, FAI shall retain all rights to the event. Regardless of any agreement or transfer of rights, FAI shall have, free of charge for its own archival and/or promotional use, full access to any sound and/or visual images of any FAI Sporting Event. ANNEX A: Changes incorporated into the 2012 edition of Section 5

CHAPTER 1: GENERAL REGULATIONS

1.1 VALIDITY, DEFINITIONS AND ABBREVIATIONS

1.1.1 Principles, authority

- (1) In accordance with the General Section of the Sporting Code, this Section, together with any amendments and the Competition Rules, contains the Regulations that apply to all sport parachuting activity.
- (2) Changes to the text of this Section of the Sporting Code are set out in Annex A, which is re-written each time changes have been approved by the International Parachuting Commission (IPC) of the Fédération Aéronautique Internationale (FAI). It contains the year of issue as required by the General Section 10.3.
- (3) Only events that are held in accordance with these rules are recognised by the FAI. NACs should apply these rules to National Championships and other National Parachuting Competitions. For national competitions, this Section of the Sporting Code may need modification to conform to local Civil Aviation regulations and to allow for novice and other competitions.
- (4) The competition parachuting disciplines are:
 - Accuracy Landing
 - Freefall Style
 - Formation Skydiving
 - Canopy Formation
 - Para-Ski
 - Artistic Events
 - Canopy Piloting

The Rules for each competition parachuting discipline are the responsibility of the appropriate IPC Committee, which will, each year, prepare a current edition, which must receive IPC approval at each IPC Plenary Meeting.

- (5) The changes to this Sporting Code and the IPC Competition Rules are valid from the 1st of March following the IPC Meeting, where the changes were approved. Any decision to change this date must be made by the IPC Plenary at the time of approval.
- (6) The IPC shall call an approved International Sporting Event (First Category Event, Sporting Code, General Section, Section 3.5.1.3), a World Cup or by any other title, excluding the word "Championship", approved by the IPC Plenary and where so designated, the relevant provisions of this Sporting Code, Section 5, shall apply.

1.1.2 Definitions

- (1) PARACHUTE JUMP: A parachute jump is a jump by a person from an aircraft of any kind, heavier or lighter than air, made with the intent of using a parachute for the whole or a part of the descent.
- (2) COMPETITION JUMP: a parachute jump performed with the intention of being scored; the score being used to determine the final competition placing. Competition jumps include those where a score is officially discarded as in a throwaway round.
- (3) ROUND: a round is the completion, by all competitors, of one competition jump of the same kind, all having been scored. A round may extend over more than one day.
- (4) THROWAWAY ROUND: a round discarded when determining the final placing. It need not be the same round for each competitor or team.
- (5) EVENT: an event comprises all the rounds of a competition and solely for the purposes of registering a protest, includes any training rounds referred to in the Competition Rules.
- (6) TEAM: a number of parachutists jumping together in an event.
- (7) FAI PARACHUTING JUDGE: A judge fulfilling the requirements of this Sporting Code, the Judging Rules and the relevant Competition Rules.
- (8) NATIONAL JUDGE: A judge fulfilling the requirements of a National Airsport Control but not yet designated as an FAI Parachuting Judge.

A new altitude jump record is set only if a record performance is greater than the current record by at least 2 percent.

Exit altitude means the altitude above mean sea level at which the individual or team leaves or jettisons the device (aircraft, aerodyne or aerostat) in or by which he/it are being carried.

No means of propulsion may be used after leaving or jettisoning the device by which the individual or team has been carried to the exit altitude.

A Drogue is a device used by an individual to aid deceleration and/or to help maintain stability

- (2) All attempts on altitude records may be made only after prior medical examination, which must include an altitude simulator test. This examination must take place within six months of the attempt and the medical certificate must be added to the record documents.
- (3) The exit altitude and the vertical distance in freefall or in drogue assisted fall are to be determined using an appropriate flight recorder, calibrated barograph or other reliable and appropriate method (ref GS 7.3.1.5).

 - (5) The number of jumpers in a team, a minimum of three, must be stated in the record documents
 - (6) The performance shall, if possible, be determined with an overall margin of error of +/- 1%. If the overall margin of error in the determination of the performance is greater than +/- 1%, the value at the least advantageous limit of the actual error range shall be used.

3.3.3 *Largest Formation records*

The record performance for the largest formation is the number of persons in one formation. One written plan describing the formation to be attempted and the personnel involved must be submitted in advance to the judges. The formation must be complete as described with all named personnel in the formation.

3.3.4 *Canopy Piloting Records*

- (1) Distance
The record performance for distance is the greatest distance achieved on a straight course that is in accordance with the Canopy Piloting Performance Record Rules.
- (2) Speed
The record performance for speed is the lowest time taken to negotiate a course that is in accordance with the Canopy Piloting Performance Record Rules.
- (3) The course used for the record performance in (1) and (2) must begin over a body of water that meets the criteria in the Canopy Piloting Performance Record Rules.
- (4) A Canopy Piloting record may be ratified only if the entire record performance was made in wind conditions of no more than 7 m/s

3.3.5 *Categories of Performance Records*

 - The maximum vertical speed attained, measured in km/h, with a drogue or stabilization device during the time from exit to the opening of the parachute with which the parachutist intends to land

A new speed jump record is set only if a record performance is greater than the current record by at least 2%.

Exit means the point in time at which the individual leaves or jettisons the device in or by which he is being carried.

No external means of propulsion may be used after leaving or jettisoning the device by which the individual has been carried to the exit point.

Any individual wishing to be proposed for addition to the list must submit an application to the IPC First Vice President. The application must contain details of the individual's experience and suitability (for example, Competition Management, Judging Experience, etc.) and must also have the approval of the individual's NAC and/or IPC Delegate. The IPC Bureau, having reviewed all such applications, has the authority to propose qualified individuals for addition to the list, by majority decision of the IPC Plenary.
- 12) Individuals on the approved list may be removed from the list
 - i) by written request from the particular individual or
 - ii) by decision of the IPC Bureau.
 - iii) by written request from the individual's NAC

The decision in (ii) must be approved by a majority decision of the IPC Plenary.
- (13) Individuals on the approved list will be automatically removed if they do not attend the IPC Plenary meeting as a registered Delegate, Alternate Delegate or Observer for three consecutive years.

4.7.2 Duties and Rights

- (1) It is the responsibility of the Jury to ensure that the provisions of the General Section and Section 5 of the FAI Sporting Code, the Competition Rules, the Official Information Bulletins and the Organiser Agreement are strictly observed.
- (2) Any case or incident not provided for by these or other valid rules must be decided by the Jury.
- (3) Jury members have the right to be present at any time in any location on the competition site, unless stated elsewhere in the rules, provided they do not interfere with or disturb the competitors, judges or operational staff.
- (4) a) The Jury is required to give its approval for the competition to begin (4.5.1). It may not do so until the three conditions provided for in 4.5.1 are satisfied
 b) The Jury is required to verify and approve the competition results and declare the FCE to be valid. (General Section 4.3.2.7.2). It may not do so until the actual final amount of the Sanction Fee has been determined by the FAI Controller and has been paid to the FAI or to the FAI Controller. If the Sanction Fee has not been paid in full, the Jury may not declare the FCE to be valid and will include the fact that the FCE has not been declared valid by reason of non payment of the full amount of the Sanction Fee in its report to the IPC Bureau (4.7.2.5).
- (5) The Jury shall ensure that the officially accepted entry list and results are sent to the FAI Secretariat in accordance with G.S. 3.16.2.1 and all information and documents relating to protests are sent to the FAI in accordance with GS 3.16.2.3.
- (6) At the conclusion of an FCE, the Jury will prepare a report to the IPC Bureau as to whether any of the provisions of the FAI Sporting Code General Section 4.3.2.4 were invoked and whether or not all the Organiser's contractual commitments have been satisfactorily completed. This report must be sent to the IPC Bureau within 8 days of the conclusion of the FCE and will be used by the Bureau to decide whether to refund the Deposit or to apply the provisions of Schedule 1, paragraphs 1.3 and 1.4 and Appendix 1 of the Organiser Agreement.

4.7.3 Treatment of Protests

In addition to the provisions of the General Section:

- (1) The President of the Jury must ensure that no member of the Jury expresses, orally or otherwise, a personal opinion and shall permit no discussion to take place in the presence of the parties concerned.
- (2) Decisions shall be reached by simple majority vote. A secret ballot shall be held, if requested by any Jury member (Sporting Code, GS, 4.3.2.6.4).

4.7.4 Finality of Decision

Decisions made by the Jury are final, without prejudice to the provisions of Chapter 9 of the General Section of the Sporting Code.

4.7.5 Para-Ski Jury

Notwithstanding the provisions above, the composition of the Jury for the skiing event at a Para-Ski FCE will be as stated in the relevant Competition Rules, but its work will be governed by the provisions and principles of 4.7.1 to 4.7.4.

4.8 SAFETY

Any person, including the Judges, may report matters of safety during the running of the competition to the FAI Controller.

4.9 CONCLUSION

4.9.1 Completion of the Competition

The competition must be declared finished at the time shown in the IPC Competition Rules for the end of competition jumping. Winners may be declared only for those events in which at least the minimum number of rounds, as stated in the IPC Competition Rules, have been completed.

4.9.2 Official Results

The Organiser will ensure that each Delegation, on request, receives one copy of the official results and must forward the official results to the FAI, in accordance with GS 3.16.2.1, for posting on the FAI/IPC website.

4.9.3 Recording Media

- (1) The Organiser of an FCE must give the Original/Master recording media of the competition, together with the summary score sheets and other pertinent documentation, to the FAI Controller at the conclusion of the competition and must ensure that each delegation can purchase copies of the same within 90 days. The FAI Controller will deliver the recording media and paperwork to the Chairman of the IPC Judges' Committee.
- (2) The Original/Master recording media is the digital recording media used for original recordings or, when relevant, is the digital media onto which a designated person directly records the digital images from the original recordings. The Original/Master recording media shall be recorded using professional quality recording and playback equipment.

4.9.4 Organiser's Report

The Organiser will present a written report at the following IPC meeting.

4.9.5 Preservation of Documents

- (1) All documents relevant to an FCE must be preserved by the Organiser for a period of at least three years.
- (2) The Organiser must make available to the Chief Judge and Chairman of the Judges' Committee such documents that are necessary for the proper completion of any reports.

4.10 Minimum Participation

Where less than 4 NACs are entered in an event (see Competition Rules – SC5 4.2) at an FCE, the Sporting Code, General Section 3.5.3.1 permits the IPC to determine whether the event will take place and whether the title of Champion will be awarded.

(1) Six months before an FCE, the relevant IPC Committee must determine the number of NACs intending to entering a team or individuals in an event at the FCE. If the relevant IPC Committee determines that less than 4 NACs have this intention, the event will not take place. The Committee will inform the IPC Bureau of this and the IPC Secretary will send out an information notice within seven days to the FCE Organiser, IPC Delegates and NACs that the particular event will not take place.

(2) If 4 or more NACs indicate an intention as per (1) to a WPC or Continental Regional Championship but less than 4 NACs make an official entry and participate, the event will take place, and the title of Champion (excluding the words World and Continental) will be used. The same provision regarding entries applies to any other FCE, where the title of Winner is always used.

- (3) An event will be removed as a valid event from the IPC Competition Rules, if:
- o The event does not take place at two successive FCEs by reason of (1) above
 - o The event has less than 4 NACs participate at two successive FCEs
 - o The event at one FCE does not take place due to one of the above reasons and does not take place the following year for the other reason.

CHAPTER 5: GENERAL COMPETITION RULES

5.1 GENERAL PROVISIONS

5.1.1 Equipment

- (1) Each participant is responsible for the good condition of his/her equipment. A fault in equipment, other than team video equipment, is no grounds for a re-jump. This also applies to the activation of any safety device used to ensure the opening of the parachute.
- (2) Equipment problems occurring in freefall, such as to make it difficult or impossible for the competitor to perform, are not grounds for a re-jump.

5.2 EXECUTION OF JUMPS

5.2.1 Other Jumps

Competitors are not allowed any jumps, other than competition jumps, during an FCE, from the time the Chief Judge and the Jury give their approval for the competition to begin until the events in which the competitor is entered have been completed. For this purpose an event is considered complete after the official results for the event have been posted by the Chief Judge and the time limit for protests for the event has expired.

However jumps other than competition jumps may be authorised by a common agreement between the Chief Judge, the Meet Director and the Jury.

5.2.2 Order of Jumping

- (1) At a competition with more than one event, the initial jump order will apply to all events.
- (2) The jump order will be as prescribed in the Competition Rules.
- (3) The Meet Director may change the jump order for a round if necessitated by re-jumps or other important organisational needs, including additional time needed by the competitors arising through no fault of their own, such as a landing out, reserve repacking, effects of excessive time at altitude, aircraft incidents, substantial changes in the order of jumping or similar occurrences.
- (4) Medical treatment does not constitute a reason for a change in the jump order.

5.2.3 Order of Events

- (1) The Meet Director, in close co-operation with the Chief Judge, must take maximum advantage of favourable meteorological conditions.
- (2) The Meet Director decides the order of events at any given time. He must, however, consider the wishes of the Jury and any pending protests, which may affect the order.
- (3) In order to ensure completion, or if the weather requires it, the Meet Director can run two events simultaneously. For this purpose, events that are open or for men are considered different from those for women.

5.2.4 Flight and/or Traffic Patterns

The basic flight or traffic pattern must be established by joint agreement of the pilots, Meet Director and Chief Judge. The interests of safety must be maintained at all time.

5.2.5 Calling the Jumpers

- (1) The Organiser must ensure that a public address system and a notice board are in place such that all competitors at the competition site can be fully informed as to the conduct of the competition. The location and area of the competition site, the public address system therein and the notice board must be approved by the FAI Controller and the Jury. Competitors will be called to the loading area approximately 15 minutes before they must board the aircraft. They will also be given a second call 5 minutes before they must board the aircraft.
- (2) If they do not arrive in time to board the assigned aircraft, the competitor or team will receive a score for that jump equal to the maximum or minimum score (as appropriate).
- (3) Each competitor is allowed a minimum time from arriving at or returning to the competition site to the first call for the next jump. The time is:
 - 45 minutes for Formation Skydiving, Canopy Formation and competitors in Artistic Events who have entered one event

- 30 minutes for Accuracy Landing, Freefall Style, Canopy Piloting, Para-Ski and competitors in Artistic Events who have entered two (2) events.
- (4) The minimum time, referred to in (3) above, does not apply to:
- The competitor's first jump of the day and re-jumps
 - Tie-breaking jumps for Accuracy Landing and Freefall Style, which will be made as soon as possible after the previous jump.
- (5) The following terms will be used by the Meet Director for advising and controlling the movement of competitors during the competition
- STANDBY. Competitors must be present on the competition site and may be called as per 5.2.5 (1) at any time.
- RELEASED. Competitors do not have to be on the competition site. This instruction must be accompanied by a time at which STANDBY status will recommence. 5.2.5 (3) will not apply to the STANDBY status in this circumstance.

5.2.6 *Cameraflyer, interference and objects in the air.*

- (1) A Videographer or cameraflyer (other than a videographer that is part of a team) who has been authorised by the Meet Director and the Chief Judge will be permitted to board the aircraft and exit with a team or competitor.
- (2) If in the opinion of the Chief Judge, the Event Judges and the Video Review Panel, a videographer or cameraflyer (other than the team's videographer) interferes with the judgeability of a team's performance or through direct body contact adversely affects a team's performance, a re-jump may be awarded. In this case the videographer or cameraflyer responsible will not be permitted to participate in further video or camera jumps during the competition.
- (3) A rejump may be offered if the Chief Judge, in agreement with the Meet Director and the FAI Controller, concludes that the performance of a team or competitor has been adversely affected by an object in the air (e.g. aircraft, canopies). The Chief Judge's decision is no ground for a protest.

5.2.7 *Ground to Air Communication*

- (1) Communication between the Meet Director or the Judges on the ground and the aircraft is by two-way radio.

5.2.8 *Aircraft Jump Run*

- (1) The competitor or team is not obliged to jump if the altitude exceeds +/- 50 metres from that stipulated for the event.
- (2) In order to avoid interference between competitors and teams, the Meet Director, in conjunction with the Chief Judge and the Chief Pilot, shall stipulate the minimum interval of time between passes (jump runs) of the aircraft over the exit point and between the exit of different teams or competitors during the same pass (jump run) of the aircraft.
- (3) If a competitor or team does not jump on their first assigned jump run, they may make no more than one additional jump run, unless authorised by the pilot to do so or where it is apparent that the competitor or team is exhibiting good safety practice or common sense in making additional passes.
- (4) The competitor or team may choose to abort a jump for any pertinent reason and may descend with the aircraft. While the length of time elapsed since take-off of the aircraft is not considered a pertinent reason to abort a jump, if the aircraft spends more than fifteen (15) minutes above 3000 m (10,000 ft) msl or ten (10) minutes above 3650m (12,000 ft) msl and there is no supplementary oxygen provided, that will constitute a pertinent reason. If a jump run is aborted and the Meet Director decides that the reason is pertinent, the jump must then be made at the earliest opportunity.
- (5) If a competitor or team fails to follow the provisions of paragraph (3) above or aborts a jump without a pertinent reason (as determined by the Meet Director) they will receive the maximum or minimum score (as appropriate) for the jump;

5.2.9. *Meteorological Conditions*

- (1) Jumping will continue as long as there is, in the opinion of the Meet Director and the Chief Judge, satisfactory weather conditions for both jumping and judging.

- (2) No further exits will be made following the interruption of an event until the conditions are satisfactory. The performance of jumpers or teams that have already exited the aircraft will be evaluated.

5.2.10 Scoring

- (1) Once any competitor, team member or team videographer has left the aircraft, the jump will be evaluated, unless the Competition Rules provide otherwise, in which case the Competition Rules will take precedence.
- (2) The scoring of performances and the unofficial results of each round must be posted on a scoreboard as soon as they are collated. The official results of each event will be posted, as soon as possible, on the scoreboard designated by the Chief Judge and approved by the Jury, and must be published within 12 hours of the completion of that event. The Chief Judge will ensure that the official results are available in time for the award ceremonies.

5.2.11 Re-jumps

- (1) Re-jumps will be made as soon as possible after the incident giving rise to the re-jump.
- (2) If a re-jump is granted to a competitor/team who has formally requested it by way of protest or other means, the re-jump must be made. If the re-jump is not made, the maximum/minimum score for that jump is given.
- (3) If jumps are made in conditions which are evidently within the limits of the Sporting Code and Competition Rules, though some of the technical conditions stated in the rules are not strictly complied with, there are no grounds for a re-jump.

5.2.12 Jumps Per Day

There is no limit to the number of jumps per day.

5.3. PROTESTS

5.3.1 Procedure, Time Limitation and Content

- (1) A protest (Sporting Code, GS 5.4) whether arising as the result of a complaint (Sporting Code, GS 5.1) or not must be made in writing, in English, and must be handed to the Meet Director, together with the protest fee of 50 Euros, within two hours of the knowledge of the grounds for protest, but no later than two hours after the official results for the particular event or round have been posted on the scoreboard, designated by the Chief Judge and approved by the Jury. For this purpose, the timing of the two hours will only be done during the time that the competitors in the event are required to be at the competition site. The protest may be presented by the Team Manager but must be signed by the competitor or Team Captain on whose behalf he acts. The Meet Director must give the protest to the Jury President without delay and advise the Chief Judge of its contents as soon as possible. A Jury meeting must be called by the Jury President at the earliest possible opportunity.
- (2) For the purposes of 5.2.10(2) and 5.3.1(1), results for a particular event or round are considered official, when posted on the scoreboard referred to in 5.2.10(2) and 5.3.1(1) with the signature of the Chief Judge thereon. No results are considered official until countersigned by the Chief Judge.
- (3) In order not to delay award ceremonies or other activities, the two hour period after the official results for a particular event have been posted may be waived by unanimous consent of all the Team Managers of teams that are entitled to submit a protest within the two hour period to be waived. This waiver consent will be indicated by the signature of each Team Manager on a form prepared by the Meet Director. The waiver will be effective at the moment all necessary signatures have been obtained, after which time no protests may be made for that event.
- (4) Each protest must state the particular rule or rules about which the protest is being made.
- (5) No protest may be made nor shall one be accepted by the Jury that deals with the evaluation of a jump or a score given by the Judges.
- (6) A protest may be withdrawn at any time before the final vote by the Jury, in which case the protest fee will be refunded.
- (7) The protest fee will be refunded if the protest is upheld.

5.4 PENALTIES

Except as specifically provided in 5.2.5 and 5.2.8, a competitor or team may be penalised by the Meet Director, with the consent of the Jury, in accordance with the principles set out in the Sporting Code, General Section, 5.2. (see below). The procedure and penalties are as follows:

- (1) The Meet Director will determine whether the infringement is Technical (SC GS 5.2.2.1), Serious (SC GS 5.2.2.2) or Unsporting Behaviour (SC GS 5.2.2.3).
- (2) When the severity of the infringement has been established and confirmed by the Jury, penalties will apply as follows:
 - (a) Technical Infringement
 - (1) Accuracy Landing, Freefall Style and Canopy Piloting Speed.
For each technical infringement by a competitor or team, a penalty equal to 20% (rounded down) of the maximum score for a jump will be added in determining the actual event score achieved by all the competitors involved.
 - (2) Formation Skydiving, Canopy Formation, Artistic Events, Canopy Piloting Distance and Zone Accuracy.
For each technical infringement by a competitor or team, a penalty equal to 20% (rounded down) of the highest score of the team, to which the competitor belongs, or of the individual competitor for a competition round up to the time of the infringement will be deducted in determining the aggregate score of the team or the competitor for the event.
 - (b) Serious Infringement
 - (1) Accuracy Landing, Freefall Style and Canopy Piloting Speed
For each serious infringement by a competitor or team, a penalty equal to 50% (rounded down) of the maximum score for a jump will be added in determining the actual event score achieved by all the competitors involved.
 - (2) Formation Skydiving, Canopy Formation, Artistic Events, Canopy Piloting Distance and Zone Accuracy
For each serious infringement by a competitor or team, a penalty equal to 50% (rounded down) of the highest score of the team, to which the competitor belongs, or of the individual competitor for a competition round up to the time of the infringement will be deducted in determining the aggregate score of the team or the competitor for the event.
 - (c) Unsporting Behaviour
The competitor or team will be disqualified from participation in any competition activity.

The following is the extract from Chapter 5 of the Sporting Code, General Section referred to above in 5.4.1:

5.2 PENALTIES AND DISQUALIFICATIONS

- 5.2.1 *The Director of a Sporting Event may penalise a competitor as described in the rules for the event. These penalties may be in the form of an operational disadvantage, deduction of points, alteration of placing order, disqualification, or any other penalty designated by the Air Sport Commission concerned.*
- 5.2.2 **SEVERITY OF PENALTIES.** *The severity of the penalties which may be imposed may range from a minimum loss of points to disqualification indicated below, as appropriate to the offence.*
 - 5.2.2.1 **Technical Infringements.** *Technical infringements of rules or failure to comply with requirements caused by mistake or inadvertence where no advantage has accrued or could have accrued to the competitor concerned should, as a guide, carry penalties leading to a reduction of not less than 2% of the best score or maximum available score for the task.*
 - 5.2.2.2 **Serious Infringements.** *Serious infringements, including dangerous or hazardous actions or repetitions of lesser infringements should, as a guide, carry minimum penalties leading to a reduction of not less than 5% of the best score or maximum score for the task.*
 - 5.2.2.3 **Unsporting Behaviour.** *Cheating or unsporting behaviour, including deliberate attempts to deceive or mislead officials, wilful interference with other competitors, falsification of documents, use of forbidden equipment or prohibited drugs, violations of airspace, or repeated serious infringements of rules should, as a guide, result in disqualification from the sporting event.*
- 5.2.3 **PUBLICATION.** *Penalties shall be listed on the score sheet of the day on which the penalty was given.*

In Formation Skydiving or Canopy Formation it may include the case where correct or incorrect would both be acceptable assessments of a particular formation or intermediate. The approved assessment is not always the collated score of the Judges being evaluated.
- (5) The evaluation in all disciplines will include an exam on the content of the Sporting Code and relevant Competition Rules. At least 80% of the questions must be answered correctly.
