|--------------------|----------------------------|--|---|
| 23 May 2016 | 2016/05 | <p><u>Subject</u></p> <p>A dispute within the Wingsuit Flying Committee was brought to the attention of the IPC-Bureau by the FAI Controller of the WS-FCE 2016 in Zephyrills. It related to the start and course of the Performance and Acro events and required a decision, due to different interpretations of the documentation from the Plenary Agenda 2016 and the Minutes 2016.</p> <p><u>Details</u></p> <p>The IPC Bureau collected all available evidence and came to the conclusion that 4 factors had full documentation and were, therefore, considered to be hard facts:</p> <p>The Bid for the 1st World Championships in Wingsuit Performance Flying event 2016;</p> <p>The addition of the 1st World Cup in Wingsuit Acrobatic Flying 2016 at the same venue;</p> <p>The change of the competition time-frame to November 2 - 10, 2016;</p> <p>An understanding that after their event is finished, a competitor may leave.</p> | <p>After deliberations, which included the host of the FCE, David TK Hayes, the IPC Bureau unanimously concluded:</p> <p>A. The Wingsuit Flying FCEs 2016 will take place for both disciplines.</p> <p>B. The Organiser will decide the schedule for the start of the Acro event be it either before, concurrently or after the Performance event, within the time-frame of November 2-10 2016, with the consideration that the Performance event will end on November 6 2016 (as scheduled in the Bid document).</p> |
